apital Protection Oriented Funds, Fixed Maturity Plans and Close ended equity schemes)				
or existing unitholders only)		Γ.		

Terms and Conditions

- 1. Folio number is mandatory.
- 2. Trigger on maturity date facility will switch all the units to the target scheme within the respective Folio Number of the investor.
- 3. Any of the Open Ended Schemes of ICICI Prudential Mutual Fund can be a target scheme (except Exchange Traded Funds).
- 4. For Trigger on maturity date facility to happen the minimum purchase/redemption criteria should be met else the Trigger on maturity date will not be effected.
- 5. Trigger on maturity date facility on each scheme will require a separate/independent Trigger on maturity date request form to be filled. If an investor holds similar schemes in two folios, they will have to register separately for it mentioning the folio number.
- 6. Target scheme where units will be switched, if option/sub-options are not selected, it will be switched to the default option (available under the Target Schemes).
- 7. Switch will be implemented on the Maturity Date of the Source Scheme. The Trigger on maturity date is a one time operation and will cease once it is exercised.
- 8. Once switch is done exercising Trigger on maturity date option, the same will not be reversed whatsoever and it will be final and binding.
- 9. If Trigger on maturity date is not activated and/or implemented due to reasons which are beyond the control of ICICI Prudential AMC Ltd. (the AMC), the AMC will not be responsible. Trigger on maturity date facility is only a facility extended by the AMC for the convenience of the unit holders and does not form part of any scheme/fund objectives.
- 10. AMC reserves the right to amend/terminate this facility at any time, keeping in view business/operational exigencies and the same shall be in the best interest of the investors.
- 11. The investor is being provided a facility to give the trigger switch request from the Multiple Yield Funds, Capital Protection Oriented Funds, Fixed Maturity Plans and Close ended equity schemes, much in advance of the maturity of the fund. At a future date changes can arise in the target scheme which can prevent the AMC from processing the switch request. In such cases the switch request would be considered NULL & VOID and the investor would have to re-submit the Trigger on maturity date request. Few examples of such changes are
 - a. Change in fundamental attribute of the target Scheme.
 - b. Merger of the target scheme into any other scheme.
 - c. Any change in the target scheme specifications which restricts the AMC from accepting the switch request. For example : Maximum and Minimum amount size
 - d. When Target Scheme has stopped accepting fresh subscriptions in the Scheme.
- 12. In case folio consolidation is requested by the investor or transmission processed in the folio, the existing trigger on maturity request would be considered Null & Void.
- 13. The investor would be allowed to re-register a fresh trigger on maturity request as per existing process.
- 14. In case of change of broker or change of investment status as "direct" after closing of New Fund Offer, the new broker code would be updated for existing investments and for existing switch request.
- 15. Conversion of physical unit to demat mode will nullify any existing / future trigger on maturity request and the request cannot be re-submitted.
- 16. Trigger on maturity date facility will be effected only when the terms and conditions of the said facilities are fulfilled.
- 17. In case of Trigger on maturity date facility, the switch into the open ended scheme will be subject to applicable cut off timings provisions.
- 18. In case of submission of multiple requests for registration of trigger on maturity from the same source scheme through different modes, the AMC reserves the right to accept any one such request and cancel the rest of the requests.
